Sir or Madam:

Pursuant to 35 U.S.C. § 254 and 37 C.F.R. § 1.322, Patentees hereby request that the U.S. Patent and Trademark Office (“PTO”) issue a Certificate of Correction (in the form enclosed) for the above-identified patent. A Certificate of Correction is needed because the first page of the patent contains an obvious printing error at line (30) under the Foreign Application Priority Data. Specifically, the priority date for application GB 0307765.8 is misidentified as April 4, 2000, when it should have been identified as April 4, 2003. The correct date appears on both the filing receipt and the inventor declaration of record. Therefore, since this error was the fault of the PTO, Patentees submit that no fee is due for this correction. However, if Patentees are obligated to pay a fee, then the PTO is hereby authorized to charge Deposit Account No. 14-1138 for any requisite fee.

In view of the foregoing, Patentees respectfully request that the PTO issue the attached Certificate of Correction for the above-identified patent.

Respectfully submitted,

Dated: September 17, 2010
